

N&C

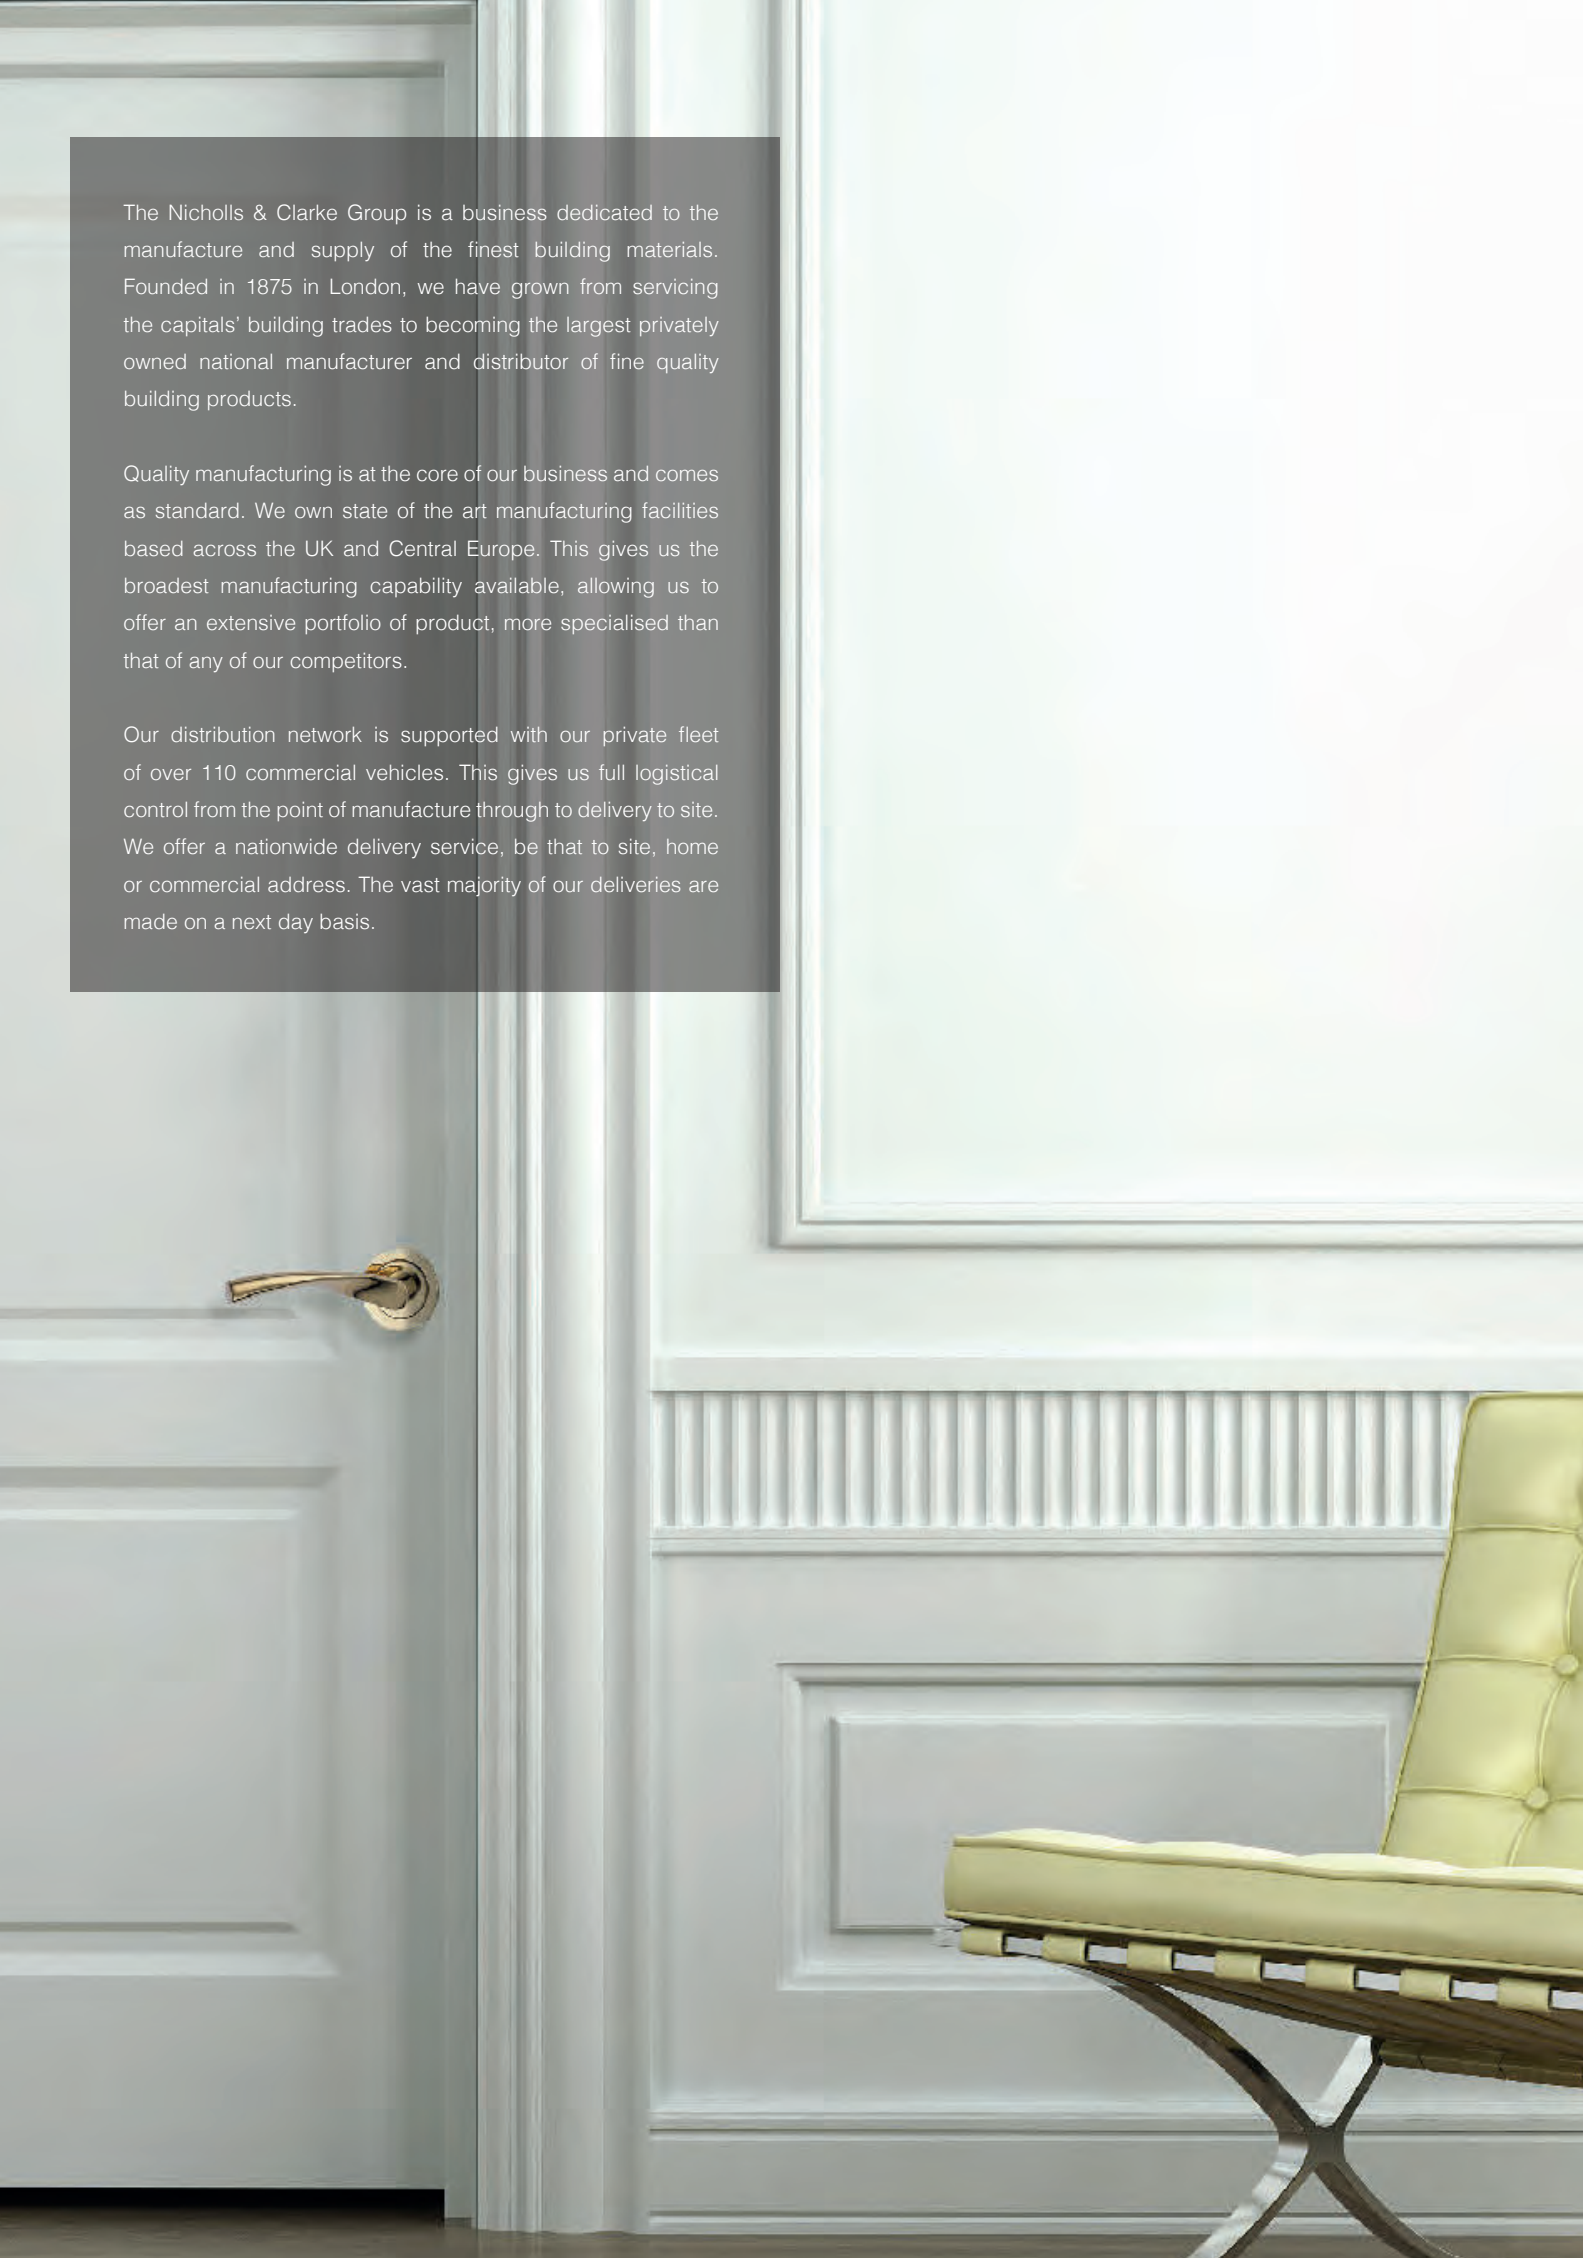

Door Furniture  
*collection*

The Nicholls & Clarke Group is a business dedicated to the manufacture and supply of the finest building materials. Founded in 1875 in London, we have grown from servicing the capitals' building trades to becoming the largest privately owned national manufacturer and distributor of fine quality building products.

Quality manufacturing is at the core of our business and comes as standard. We own state of the art manufacturing facilities based across the UK and Central Europe. This gives us the broadest manufacturing capability available, allowing us to offer an extensive portfolio of product, more specialised than that of any of our competitors.

Our distribution network is supported with our private fleet of over 110 commercial vehicles. This gives us full logistical control from the point of manufacture through to delivery to site. We offer a nationwide delivery service, be that to site, home or commercial address. The vast majority of our deliveries are made on a next day basis.

## Door Furniture

Nicholls & Clarke offer a comprehensive, stylish and practical range of modern and traditional style door furniture, ideal for commercial or domestic use and available in range of applications and finishes. Our collection includes a broad range of door knobs, lever handles, push plates, escutcheons and a wide range of additional fittings for both indoor and outdoor use.

Established in 1875, Ironmongery continues to be a core part of the business which has led to our proud heritage, loyal customer base and invaluable industry expertise. Our comprehensive portfolio of the latest architectural ironmongery products are a vital element for consideration during the design stage of any building, whether a refurbishment or new build. As a result we have made it imperative that the products we offer are of high quality, fit the application purpose, comply with the BS/EN Standards and are competitive.

As long term members of the Guild of Architectural Ironmongers, we have a fully qualified team with full technical knowledge and the ability to prepare detailed schedules from architectural drawings.

## Experience

Established in 1875, Nicholls & Clarke has pedigree that has been developed over many years. Through great heritage, we have gained a depth of knowledge and invaluable experience in the manufacturing and supplying of ironmongery products to the construction industry. We have experience across many industries with a huge portfolio of products suited to most project environments.

## Total Solution Providers

Part of the Nicholls & Clarke Group, we have the ability to offer a comprehensive range of products from ironmongery, sanitaryware, heavy side products to wall and floor tiles, tiling solutions and independent living solutions. We offer the complete package so that you can benefit from dealing with one source, making it easier to co-ordinate project supplies.

## Technical Specification Service

This document will make the process of selecting the correct products for the required environment much simpler through information on client needs as well as legislation. If in doubt, our expert team are on hand to guide you in the right direction on specific project queries.

## Environment

As an ISO14001 company, sustainability is a core part of our company agenda. As well as various carbon offsetting programmes in place, we invest a great deal in manufacturing and developing solutions that help reduce our carbon footprint.

## Inventors & Innovators

Nicholls & Clarke continue to be at the forefront of innovation, embracing new technology within the industry and better defining our portfolio with products that perform, but where style and quality are at its peak. As inventors, we continue to engage in research and development and understand industry and customer requirements in order to present solutions that overcome day to day problems.

## 24 Hour Nationwide Delivery

Nicholls & Clarke are unique in being able to offer nationwide, next day delivery, even when you order up to 5pm the day before\* and there is no minimum order requirement. We operate out of 18 branches nationwide so can offer localised delivery, and with over 60,000 product lines you also have the option, in most cases, to collect.

## Research & Development

Prior to going to market, we undergo rigorous testing of all our products to ensure that performance is to a high standard. All products are tested to meet the relevant standards and regulations.

## Customer Care

We aim to provide you with an outstanding level of customer service that will help to further enhance the service you offer to your clients. We monitor our performance levels and strive to achieve 100% client satisfaction. We believe that open channels of communication with our customers, coupled with their feedback are a sure way of further improving our customers buying experience.

## Product Features Key

**Commercial Use**  
Products suitable for use in commercial applications

**10 Year Guarantee**  
Products that come with the associated manufacturers

**British Standards**  
Products that comply with British Standards

**Domestic Use**  
Products suitable for use in the home/private property

**CE Complies with European**  
health, safety and environmental legislation

**Certifire**  
The international certification mark of fire safety

**Fire**  
Fire rated for 30min - 60 mins and 120mins

## Commercial Partners

We have worked in partnership with an extensive list of customers throughout the U.K and worldwide on some of the most demanding projects imaginable. Our first UK and export project was completed over 55 years ago, yet our products continue to perform today and will continue to do so for the life of the building or project.

This pedigree has created ultimate confidence in the Nicholls & Clarke range of products. Today we have N&C products specified by many recognised UK and international brands and are also working with many of the UK's premier contractors who in turn work in partnership with these brands.

### N&C Ironmongery

#### Storage

It is essential that all ironmongery received on to site is stored in good clean, dry conditions prior to fixing. All items are carefully packed before delivery to avoid damage and are supplied complete with fixings. Where necessary, fixing instructions are included with each item. During construction, ironmongery must be protected after fitting. Care should be taken to avoid fitting any ironmongery whilst "wet" trades are still in progress. Fittings must be stored away from abrasives, acids and other corrosive materials.

#### Fixings

Each item of ironmongery should be fitted in accordance with the appropriate fitting instructions, using the fixings supplied. No substitution of fixings should be undertaken without reference to Nicholls & Clarke. Such substitution may invalidate any performance statement given or implied in product literature or fixing instructions.

#### Installation

All ironmongery supplied by Nicholls & Clarke has been carefully selected to provide optimum performance for the individual project. Considerations include fitness for purpose to suit the necessary level of performance, fire/safety requirements according to appropriate standards and regulations, co-ordination and compatibility for purpose, backed by a full technical service.

The correct installation of all items of ironmongery is essential to achieve the performance levels stated
